

## Laboratories

### Quality management

Delphic's laboratories and sample reception centres have certification to appropriate international standards for the work undertaken at their facilities.

These include: ISO 9001:2000, GCLP and CLIA

Delphic is able to demonstrate to pharmaceutical companies, CROs and clinical service providers that their laboratories operate to a standard that assures the reliability, quality and integrity of the work carried out and results generated. It also ensures the consistency and improvement of their working practices.

### Certification

#### Delphic Laboratories (Kent) Ltd

Pharmacogenetics, Virology, Immunology  
BS EN ISO 9001:2000 (FS 56079), CLIA ID (99D1060454)

Pharmacology  
GCLP (01206), CLIA (99D1060456)

Visit our web-site to download our certificates: [www.delphicdiagnostics.com/laboratories](http://www.delphicdiagnostics.com/laboratories)

If you have any questions concerning our accreditation status, please email: [customerservices@delphicdiagnostics.com](mailto:customerservices@delphicdiagnostics.com)

### Dept of Health

Delphic laboratories and sample reception centres comply with the standards recommended in Department of Health guidance for pathology services:

"Laboratory accreditation systems are a key part of clinical governance and quality improvement in the NHS. Therefore, all NHS trusts should now ensure that pathology services are accredited with Clinical Pathology Accreditation (UK) Ltd (CPA) (or another relevant body accrediting to equivalent standards)."

'Modernising Pathology Services'. DH Pathology Modernisation Team, February 2004
